JACK MAGNET: ALBUM ART

I would like to thank Sarabon (Sandy) McGraw and Richard Whiting Smith for making their dream come alive with this project and also Mark Nordman for tuning the dream into reality. Thanks to Paul Brown for his incredible production and friendship and a special thanks to all the fantastic musicians who lent their talents to the recordings. To my 'haha' David Santos, The Motor's, Barnes, Jones, Rainer's, Hatch's, Manger's, Santos', Dick Williams, Judith Dornstein, Cliff Richmond and all of my friends, family and fans.... I greatly dedicated this project to my loving parents, James and Viola Motor. We all had a lot of fun and joy in making this album. We wish it turned out something really special... and hope you feel that way too. Love to all of you who love to love.
